Comments from delegates: -

"To have someone explain about the whole process surrounding FDs was more than helpful"

"Gave me a good understanding of exactly what is involved."

"It filled the gaps in my knowledge of Foundation Degrees"

"I now have clarity about FDs; what they are and how they differ from HNDs."

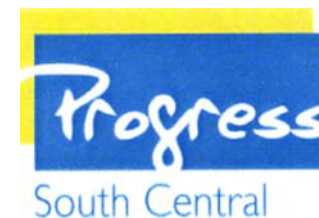

"This was the first time I had heard of Foundation Degrees!"

"The questions and answers session was very helpful."

"The information about what is available locally was very useful, thanks."

"I now have a clearer understanding of the philosophy of Foundation Degrees."

"Really worthwhile and informative."

Continuing Professional Development

Foundation Degrees

Another opportunity for staff to attend a CPD session, at no cost, held at your institution, at a time to suit you.

Aimhigher...

Milton Keynes Oxfordshire and Buckinghamshire

Are your Staff able to give students the best information, advice and guidance about continuing their education options?

+

Are your staff fully aware of Foundation Degrees?

+

Do your staff know where Foundation Degrees fit in to the HE Qualification Framework?

+

Are your staff aware of the routes to and from a Foundation Degree?

+

Do your staff know that Foundation Degrees can be achieved through both full- and part-time study?

Hopefully, the answer to all these questions is 'yes', but if not, then please consider contacting us to arrange a free workshop to discuss Foundation Degrees with any of your staff.

Progress South Central (PSC) and Aimhigher, Milton Keynes Oxfordshire and Buckinghamshire (AhMKOB), are collaborating to meet a perceived issue that many staff in schools and colleges are less familiar with the diversity of Foundation Degrees than they are with conventional degrees.

This may well limit the information, advice and guidance they can give their students. PSC and AhMKOB are therefore offering staff in schools and colleges the opportunity to attend CPD sessions to discuss the range of Foundation Degrees now available in many universities and colleges.

Each session will explain what Foundation Degrees are; how they differ from conventional degrees; the progression routes to and from these exciting qualifications; and the benefits they bring to students and employers. We would like to hold a session at your institution at a time convenient to relevant staff. The presentation will take about 40 minutes, and we would be very happy to answer any questions that may arise.

Please see overleaf to find out more about this opportunity to make sure your staff are able to give students the best Information, Advice and Guidance about continuing their education options, particularly with regard to Foundation Degrees.
